To Whom It May Concern,

It is with great pleasure and confidence that we can recommend the work of Elisha Blatt.

Elisha has completed 4 wallcovering projects in our home. These jobs included our kitchen, laundry room, child's bedroom and a children's playroom. With each project his work has always been meticulous and excellent.

We were especially impressed with his work in our kitchen where numerous bullnose corners, 45 and 135 degree angles, and angled soffits made the work extremely difficult. Elisha took his time at the beginning of the job to think through the various options of hanging the paper, discussed with us each of the viable options that would have impacted the overall design, made professional recommendations, and then executed the job flawlessly. His willingness to spend time thinking about the job upfront, before cutting a single roll, assured us that the job would be done to our satisfaction the first time. His many years of experience really showed as he executed this job perfectly.

With each job at our home Elisha always exhibited the same qualities:

He is timely with appointments and accurate in estimating the time required to complete a job.

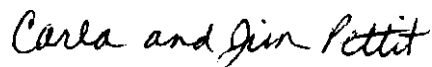

He minimizes intrusiveness and maintains a very clean job site.

He is very courteous and places his customers satisfaction as his highest priority.

And lastly, but most importantly, he is a meticulous wall paper hanger and does an outstanding job.

Having been involved in an extensive remodel and having experience dealing with numerous subcontractors we have a great appreciation and respect for those who exhibit the qualities that Elisha has. If you have a wallcovering job that requires an experienced professional who delivers outstanding quality at a fair price then we highly recommend Elisha Blatt from Blatt Wallcovering.

Sincerely,

Carla and Jim Pettit
